DEGLI STUDI DELLA
TUSCIA

Swedish University of
Agricultural Sciences

SUMMER SCHOOL DESIGN OF SUSTAINABLE FOOD SYSTEMS

The summer school is promoted by three EU Universities:

- University of Tuscia, Viterbo, Italy;
- Swedish University of Agricultural Sciences, Uppsala, Sweden;
- University of Natural Resources and Life Sciences, Wien, Austria.

These institutions have come together to provide Bachelor and Master's students an opportunity to acquire an in-depth knowledge of theoretical and practical issues related to the sustainability of food systems. Major thematic topics reflect the four-pillar approach of the Farm-to-Fork EU strategy, thus combining sustainability of production, food processing and distribution, sustainable consumption styles and prevention of food waste.

5TH JULY 2022 VIRTUAL COMPONENT

11TH– 22TH JULY 2022 PHYSICAL MOBILITY

PIEVE TESINO - ITALY

Deadline for applications **30TH April 2022**
